

Welding Blanket 1,350°C

Art. No.: 70 160 110

Applications

- For moderate to high load with vertical and horizontal use
- Protection against weld spatter, flying sparks, grinding sparks and slag

Benefits

- Reliable protection against weld spatter, flying sparks grinding sparks and slag due to silicate fabric

Properties

- lined on all sides
- Made from uncoated silicon dioxide
- Resistant up to 1100 °C, briefly up to 1,350° C
- Soft, flexible

Technical Data

Basic data	
Width	1760 mm
Height	1000 mm
Thickness	0.7 mm
Weight	600 g/m ²
Colour	tan
Temperature	up to 1,350
Longitudinal tensile strength	2500 N/5cm
Transverse tensile strength	1500 N/5cm
