

# Partitioning Wall Systems

Art. No.: 95 000 001 200

## Technical Data

---

### Applications

- Welding booths
- For equipping schools and training workshops
- Factory building partition
- Closed booths

### Benefits

- Less noise pollution thanks to the innovative noise barrier modules
- Tidy workshop due to fixed work stations
- Size of the sound insulation booths can be arranged according to your wishes thanks to the modular principle

### Properties

- Consisting of various system elements on the modular principle
- All components with UV radiation-inhibiting coating
- Soundproofing material made from bio-soluble mineral wool
- Non-combustible material as per DIN 4102
- Exhaust arms and telescopic arms can be mounted
- Can be combined with KEMPER curtains and strips

### Accessories

- Exhaust arms
- Telescopic arms
- Various tables
