

Swivel Arm Wall Mounted, Lockable And Telescopic

Art. No.: 131 5570

Technical Data

Basic data

Length	1500 - 2000 mm
--------	----------------

Applications

- For flexibly separating individual work and factory areas
- For protective welding curtains and strips
- Protection against dangerous radiation from welding arcs and splashes

Benefits

- Partition can be extended or pushed together flexibly due to telescoping facility
- Easy operation of the telescoping facility by means of a chain
- Increased safety for persons and equipment due to locking.
- Space-saving because the pivoting arm can easily be folded aside
- Fast set-up of partition by simply unfolding the pivoting wall arm

Properties

- Can be locked into position
- Tube (1") for attaching welding curtains
- Mounting on a pillar or on a wall using a wall bracket
