

# High temperature hose up to 250°C

Art. No.: 114 0739

## Applications

- Extraction of hot air or gases at exhaust systems
- Extraction of hot vapours and gases

## Properties

- Fire retardant and compressible
- Ultraflexible
- Temperature range : -20 °C to +250 °C, short term +300 °C
- Silicone-coated glass fibre fabric

## Scope Of Supply

- Two hose clamps
- 

## Technical Data

| Basic data             |                                    |
|------------------------|------------------------------------|
| Working pressure in PA | 70000 Pa                           |
| Diameter               | 165 mm                             |
| Lenght in m            | 10 m                               |
| Material               | Silicone-coated glass fibre fabric |
| Bending radius         | 51 mm                              |
| Weight                 | 0.99 kg/m                          |
| Wall Thickness         | 0.2 mm                             |
| Colour                 | red-brown                          |
