

Welding Protection Strip Red, DIN EN ISO 25980

Art. No.: 70 202 032

Applications

- For separating individual work and factory areas
- Protection against dangerous radiation from welding arcs and splashes
- visual protection
- Light dimming

Benefits

- Individual protection configuration by selecting degree of overlap
- Can be moved aside due to being attached to C-profile
- Passages can be created at several points in the partition since the individual elements in combination with a C-profile can be pushed aside in both directions
- Installation made easier and time is saved when mounted on folding KEMPER suspension brackets

Technical Data

Basic data	
Width	300 mm
Thickness	2 mm
Weight	0,80 kg/m kg
Colour	red
Standard	DIN EN ISO 25980

Properties

- DIN EN ISO 25980 certified
- Suspension by means of suspension brackets or pipe clamps on a tube or C-profile
- Strip overlap of 33%, 66% or 100%
- Can be installed in fixed position or laterally movable
