

Welding Blanket 1,350°C

Art. No.: 70 160 100

Applications

- For moderate to high load with vertical and horizontal use
- Protection against weld spatter, flying sparks, grinding sparks and slag

Benefits

- Reliable protection against weld spatter, flying sparks grinding sparks and slag due to silicate fabric

Properties

- lined on all sides
- Made from uncoated silicon dioxide
- Resistant up to 1100 °C, briefly up to 1,350° C
- Soft, flexible

Technical Data

| Basic data | |
|-------------------------------|----------------------|
| Width | 1000 mm |
| Height | 920 mm |
| Thickness | 0.7 mm |
| Weight | 600 g/m ² |
| Colour | tan |
| Temperature | up to 1,350 |
| Longitudinal tensile strength | 2500 N/5cm |
| Transverse tensile strength | 1500 N/5cm |
