

VacuFil 250

**Permanent use –
up to 2 workplaces**

Suitable for large quantities of smoke and dust due to automatic filter cleaning

**Stepless suction power
regulation**

The integrated side channel compressor ensures a permanently high suction power, which is steplessly adjustable on the unit

Contamination-free dust removal

No contact with health-endangering fine dust due to dust-free dust discharge

Start-Stop automatic (optional)

The link to the welding machine is saving time and energy
