

Levelling platform

Art. No.: 131 6868

Technical Data

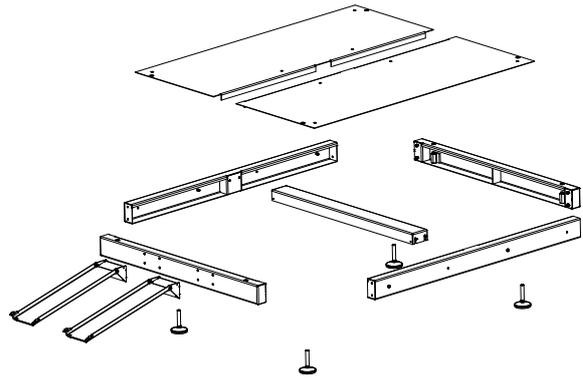

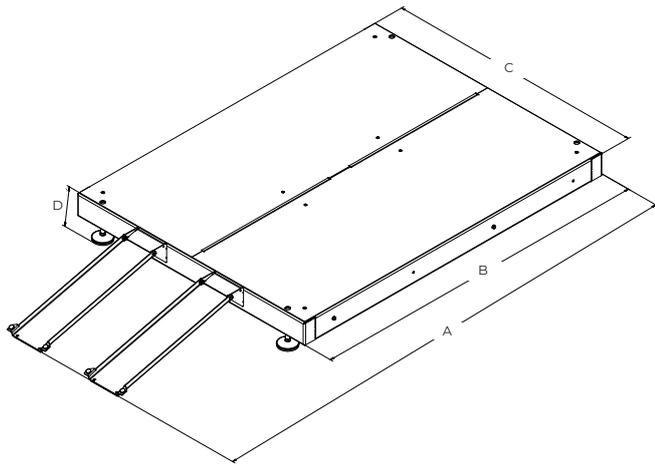

Basic data	
Dimensions (w x d)	1423 x 1865 mm
Weight	129.61 kg

Benefits

- Easy alignment from uneven surfaces by means of adjustable machine feet
- Quick and easy installation of the system due to the fact that no foundation / base plate is required on site
- Protects against contamination from below by raising the system

Properties

- Adjustable height: 165 - 200 mm
- Easy access to maintenance and cleaning openings even in bad weather (leaves, snow)
- Multiple levelling platforms together form the surface for systems of different sizes
- Ramps for the dust collection container can be folded up or dismantled
