

Pivoting Arm For Welding Curtains

Art. No.: 70 700 251

Applications

- For separating individual work and factory areas
- For protective welding curtains
- Protection against dangerous radiation from welding arcs and splashes

Benefits

- The partition can be slid into position due to the C-profile
- Space-saving because the pivoting arm can easily be folded aside
- Fast set-up of partition by simply unfolding the pivoting wall arm
- Totally adaptable to your needs, since the preferred boom height and the height of the curtains can be chosen as desired

Technical Data

Properties

- For curtain version: C-Profile for fitting
- For curtain and panel version: Pipe (1") for fitting
- C-profile for mounting
- Length from 2 m to 6 m
- For wall mounting
- Note: Additional guy wire is provided only for pivoting arms with length of 5 m and 6 m
