

High vacuum extraction hose up to 85°C

Art. No.: 93 070 004

Applications

- extraction systems
- Laser technology
- Machine and plant construction

Properties

- Ultraflexible
- axial and radial spring reinforcement
- Temperature range : 0°C to +85°C
- PVC extraction hose with material reinforcement by spring steel spiral

Scope Of Supply

- Two hose clamps
- High vacuum extraction hose Ø 45 mm, 2.5 m long

Technical Data

Basic data	
Working pressure in PA	bool_false Pa
Diameter	45 mm
Lenght in m	2.5 m
Material	PVC weave with additional thread steel spiral
Bending radius	175 mm
Weight	0.43 kg/m
Wall Thickness	0.65 mm
Colour	black, RAL 9005
