KEMPER Connect Bridge

Art. No.: 360 5615

Applications

- Connection to the KEMPER Connect cloud platform
- Retrofit of selected KEMPER units with IoT functionality
- Acquisition and transmission of operating and status data

Benefits

- Fast digitalization of existing systems
- Access to operating data from anywhere
- Retrofit of selected KEMPER units with IoT functionality
- Early detection of maintenance and service requirements

Properties

- Automation, scheduling and notifications
- Includes 6 months of free KEMPER Connect usage
- Bidirectional data communication
- Integrated cellular connectivity (4G/LTE)
- Plug-and-play installation: connect, link, and get started
- Retrofit solution for existing KEMPER systems
- Status display directly on the module

Technical Data

Basic data	
Dimensions (w x t x h)	125 x 67 x 28 mm
Weight	125 g
Radio standard	LTE / 4G
Temperature Range	-20 - +40°C
Radio standard	wireless connection
Connector	M8 connector
