

Cartridge Smoke Filter Unit

Non-stop operation

Suitable for high levels of smoke and dust due to automatic filter cleaning.

Less energy costs

Low compressed air usage due to differential pressure controlled filter cleaning as and when needed.

Comfortable operation

Comfortable adjustment of selfsupporting exhaust arm into every desired postion with only one hand.

LED work light (optional)

Allows a good view onto the workpiece which leads to a better performance and supports the operator to re-position the hood.

Low-contamination dust extraction

KEMPER

Hardly any contact with substances hazardous to health due to the dust-free discharge into a dust collection container.

Start-Stop automatic (optional)

The link to the welding machine is saving time and energy.

40 % more welding fume capture

Less adjustment required due to larger capture area with flange-shaped hood.
