

VacuFil 125i

Many compatible extraction torches

Convenient extraction power setting via touch display for multi-manufacturer torch selection

Digitally networked

Fleet management, remote maintenance, and predictive maintenance with the help of self-sufficient cloud networking via mobile phone network

Non-stop operation

Suitable for high levels of smoke and dust due to automatic filter cleaning.

High extraction

integrated side channel compressor ensures a permanently high extraction power, which is infinitely adjustable on the unit

Contamination-free dust removal

No contact with health-endangering fine dust due to dust-free dust discharge

Monitoring of the extraction rate

thanks to the automatic extraction rate control, the air volume flow remains constant even with increasing filter saturation

Start-Stop automatic (optional)

The link to the welding machine is saving time and energy.
